

AIMING FOR EXCELLENCE

The Strategic Plan of Edmonton Academy

2022 – 2024

Overview

The purpose of this document is to outline the strategic plan of Edmonton Academy as developed by its Board of Directors.

Background of Edmonton Academy

Edmonton Academy Society for Learning Disabled was founded in 1983 through a group of parents identifying a need for specific programming and instruction that would support their child's academic and school success. As an Alberta Education Designated Special Education Private School, Edmonton Academy specializes in providing education for students with specific learning disorders/disabilities. Edmonton Academy is a registered charitable organization and operates as a registered not-for-profit Society in Alberta, governed by a volunteer Board of Directors.

Programming at Edmonton Academy is based on current and evidence-based practices that are effective for teaching students with specific learning disorders/disabilities. As such, teachers receive specialized training and professional development to meet each of the students individual and specific learning needs. Students are supported to develop an understanding of how they learn and to build their independence by utilizing the tools and strategies that work best for them into the future.

Edmonton Academy has historically served students from Edmonton Public and Catholic school boards as well as boards from surrounding school communities. Edmonton Academy's Board of Directors strives to increase student enrollment within the existing facility through their participation, support, and promotion of our unique and specialized learning environment.

Mission Statement

The primary purpose of Edmonton Academy is to provide a high standard of specialized teaching in order to meet the needs of its students. As such, Edmonton Academy recognizes that student progress – academic, social and emotional – is the ultimate measure of the school's ability to meet its students' needs.

2022 – 2024 Major Goals

1. Provide a welcome, safe and caring environment
2. Support high quality learning
3. Promote Edmonton Academy
4. Increase enrollment
5. Increase revenue
